Sprint-1	Login	-USN-3	As a user, I can log into the application by entering email & password	1	High	Sanjay krishnan Abishek

INTRODUCTION :

- In this sprint we have presented an android application, which can be used for signing up and login to use the service.
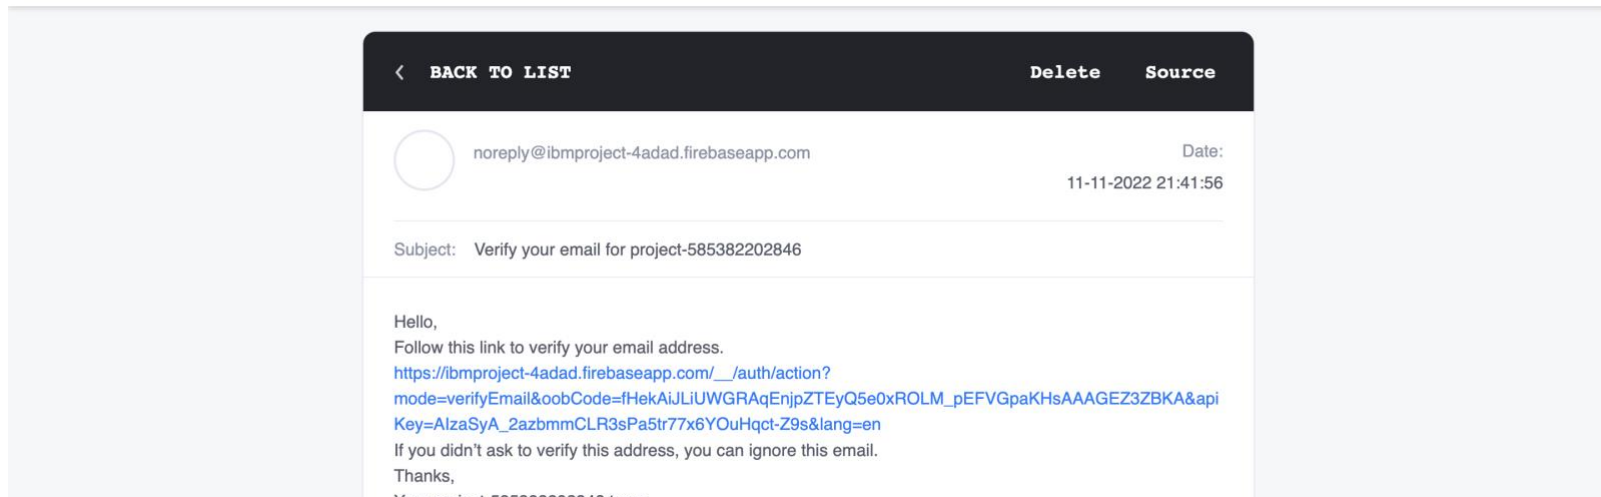

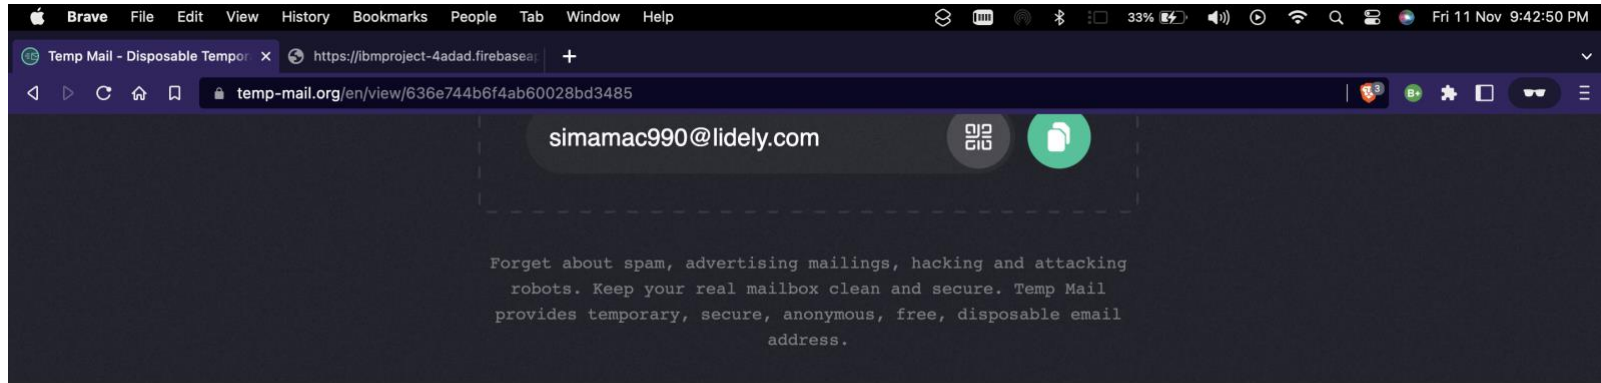

SIGNUP :

New users can enter their email address and preferably a strong password

Once they hit signup option, a verification link will be sent to that corresponding email address.
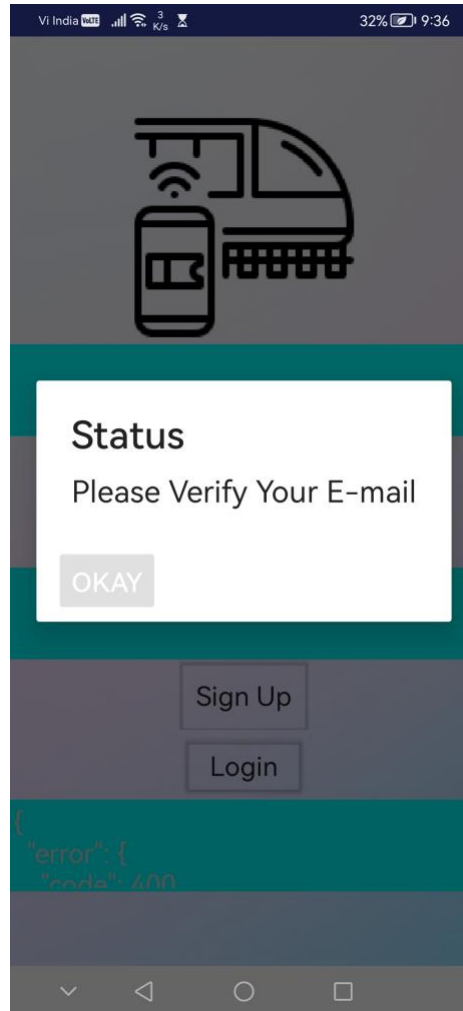

Verification E-mail :

E-Mail is saved in the database

If the user tries to login before verifying his/her email address, a pop-up window will alert them

After verification process, the user may login to use the service .
